The Oregon Railway & Navigation Company announces that its Baker City branch will be open for traffic to Cayuse station, twelve miles beyond Pendleton, next Monday. This will open a wagon haul over the worst part of the road to Idaho.

At the mouth of the Skeena, B. C., three new canneries are approaching completion. Great activity prevails, not only at the new canneries, but at the old ones. Many of them are enlarging and all are at work making preparations for the reception of the Spring catch of salmon.

Mrs. Lucy Tuttaine, the woman who, with her children, made a practice of turning switches on the Southern Pacific Railroad, in San Geronimo pass, for the purpose of wrecking, has been discharged on account of disagreement of the jury. A warrant was immediately served upon her by United States Marshal Marshal, and she will be brought before the United States Court in San Francisco to answer to a charge of obstructing the United States mails. If Mrs. Tuttaine had stolen a plug horse she would now be in San Quentin.

A rancher, with the idea that the rain would give him a bigger hay crop than he could use and that he might dispose of it to the government at war prices, started an Indian scare on the Columbia, eighty miles above The Dalles, Oregon. He claimed that the Umatillas who are peaceful red men because they are few in number, and have been whipped into submission—were about to go on the regular Spring warpath. He succeeded in getting the troops to his locality, but, strange to say, the officer in command failed to see any Indian outbreak.

EDITORIAL NOTES.

If the Nihilists continue their preparations on the present scale up to the coronation time, says the *Salt Lake Tribune*, it will be no joke to be an ambassador to Russia. One of the most uneasy feelings that a man can have is to sit on a keg of powder and know that a lighted fuse is attached to it, and that something must be done immediately or there will be something more rapid than a balloon ascent.

A bill has passed to be engrossed in the Legislature of Maine prohibiting the sale or giving away of toy pistols, under a penalty of not less than five or more than one hundred dollars, and a liability for all damages from such sale or giving away. This will somewhat curtail the crop of Christmas items, and cut down the reporter's perquisites, so to speak.

In Santa Cruz county sixty cents per day has been allowed for feeding each prisoner in the county jail, while in San Mateo but twenty cents is allowed. The cunning tramp is quick to discover which county keeps the best boarding-houses. Here in Reno we make tramps earn their feed in the chain-gang, which they have also been quick to discover.

Mrs. Helen Hunt Jackson, a Boston literary lady, has been appointed a sort of commissioner to enquire into Indian affairs. Let her get right down into Arizona at once, where the Apaches will paralyze her with pointed facts, so that she will wish herself at home playing bo-peep in Faneuil Hall.

Nevada will not be represented at the Amsterdam World's Fair, says the *Elko Independent*. Utah and Colorado have sent specimens and a commissioner. Nevada has grown too poor to care to show its shabbiness to the whole world—and Holland is a long way off. It will wait for the next big show.

The Republicans and Citizens of Chicago have joined forces in nominating a municipal ticket, and have adopted a platform declaring for a license of \$250 a year for beer saloons, and \$500 for saloons selling distilled liquors.

The Illinois Legislature is considering a bill to encourage timber culture. It provides for exempting a certain class of lands from taxation for twenty-five years if they are planted with trees.

At the Produce Exchange in San Francisco on Monday, No. 1 feed barley declined \$3.10 per ton from Saturday's rates. Such a decline in one day is unprecedented.

The published picture of Senator Tabor makes him look more like a hotel sneak-thief than a millionaire statesman.

 A Chapter on Building Iron and Steel War Ships.

WASHINGTON, March 28.

It is said that the Naval Advisory Board will report favorably on equipping Leguia Island yard with the plant and machinery necessary for the construction of iron and steel ships. Naval officers believe that the action of Congress in authorizing the construction of new steam cruisers is a forecast of the future policy of this Government touching its navy; that war ships of the future will be of steel or iron, and that the Government will soon appreciate the importance of being able to build its own ships.

A prominent official of the Navy Department remarked to-day: "Now that the vexed question of monitors is out of the way, we may confidently expect to have a navy. The great mistake of this Government was in undertaking to have its ships built in foreign yards instead of at its own yards. When wooden frigates were in vogue ours were in every respect the finest in the world. We had the most skillful and intelligent artisans, our frigates were the admiration of all nations in every port; but wooden ships are now out of date and we have fallen behind in the construction of iron ones. Sooner or later, however, Congress will realize the importance of equipping some of our yards for iron and steel ship-building, and I have no hesitation in asserting that it will soon be found that we can excel other nations in this character of ships as we always have done with our wooden vessels."

A Kentucky Libel Suit in Which Plaintiff gets Damaged.

LOUISVILLE, March 29.

The libel suit of George B. Hite and wife against the *Courier-Journal* for the publication of statements relating to an alleged liaison between Mrs. Hite and the late Jesse James, has been on trial for ten days, and came to a conclusion this evening, the jury finding for defendant. The amount sued for was \$25,000. A series of questions was submitted to the jury, which were answered in substance as follows: Mrs. Hite had been in love with and had a liaison with Jesse James; that she had deserted her husband; that she had corresponded clandestinely with a young man in the neighborhood; that the Jesse James liaison had caused disaffection in the Hite family; that Mrs. Hite swore out a warrant against Wood Hite, her stepson, charging him with killing a man, Turner, because Hite caught him carrying notes from Mrs. Hite to the young man; that she had deserted her husband; that she had corresponded clandestinely with a young man in the neighborhood; that the Jesse James liaison had caused disaffection in the Hite family; that Mrs. Hite swore out a warrant against Wood Hite, her stepson, charging him with killing a man, Turner, because Hite caught him carrying notes from Mrs. Hite to the young man; that she had deserted her husband; that she had corresponded clandestinely with a young man in the neighborhood; that the Jesse James liaison had caused disaffection in the Hite family; that Mrs. Hite swore out a warrant against Wood Hite, her stepson, charging him with killing a man, Turner, because Hite caught him carrying notes from Mrs. Hite to the young man; JOTTINGS.

Minor Occurrences in and About Town.

The Truckee is still rising. La Gaite club dance to-night. The chain-gang has six operatives. Snow fell in Reno from 2 A. M. till 4.

The cattle business is dull at present.

Trot will be here for the next week or two.

It is said that ducks are plentiful in the Truckee meadow-slopes. Brass bird cages at Na-by's. Thermometer at 7, 8, 11, 1, 3-43, 47, 48, 50, 50.

Dickens will move into his old store next week. It is being fixed up in good shape.

March came in like a pensive sleep and is going out like a bull elephant with the blind staggers.

The hills west of us are more thoroughly covered with snow than at any other time during the winter.

The morning express was forty minutes late, caused by a delay at Blue Canyon from sliding rocks and snow.

The Palace Hotel is upset while carpenters make improvements. Both houses were filled with guests last night.

Trains cannot make up much lost time in the hills, but when they get out on the desert they can catch up suddenly.

If all the tickets sold are represented at the ball-to-morrow evening, it will be a very enjoyable affair. You had better attend.

Ice and snow on the streets this morning made things look as if Winter had returned with renewed energy. And the storm isn't over yet.

The emigrant train this morning had more than six inches of snow on its roof. The storm in the mountains last night was pretty lively.

A smart little boy got a good laundromat to-day for stealing a ride on a freight train. If the practice is not stopped altogether the coroner will have a job before long.

The meanest man in the world is he who will not give a reporter a civil answer. But if that man's hen lays an egg with a double yolk he wants a column notice of the fact.

The Madison Square Theater Company unloaded a mountain of trunks and other plunder at the depot this morning. It would seem that the freight on them would impoverish a circus.

J. K. Everett is full of business, which is increasing all the time. Customers realize that the best groceries are the cheapest. He not only has prime goods, but sells at the lowest prices.

Professor Faracy will give his dancing class for ladies in Reform Club Hall, instead of Kimball Hall, on Saturday afternoon. Strict attention paid to children. School commences at 2 o'clock.

A dealer who don't know what a good cigar is himself cannot supply others with a good article. E. Meyer is an excellent judge of cigars, and therefore keeps prime ones. Call on him and he will convince you that he knows good from bad.

Phi Bates says that in some places, before the present rain came, where water usually stands on the surface at this season of the year, the ground was too dry to plow. It will now be in fine condition. He will put in about 100 acres of grain this year.

The sleepers attached to the morning express were so full that a great many tired passengers had to take potluck wherever they could doze. There was an unusual number of passengers on the train, and every berth was secured before it left Sacramento.

George Becker invites everybody to visit his brewery and see for themselves that it is one of the neatest places in the country. His beer proves that he knows how to make a beverage that is harmless and wholesome. Call in and sample the Pacific Brewery beer.

A large quantity of the cream of the market goes to Virginia by express every morning. Comstockers are bound to live well, even if the Savage crosscut develops nothing. They will eat, drink and be merry, no matter what comes. Dan's precepts have borne good fruit.

Blackbirds are fat now, and there are thousands of them. An old sport says they are the finest kind of eating—better than doves, and quite as meaty. A gunner ought to be able to kill a thousand of them before breakfast any morning. In some places the ground is black with them about sunrise.

"Now, children," said a visitor in his address to the Sunday school, "what do you suppose was the first thing I did when I was a little boy, and attended Sabbath school?" And a freckle-faced youngster in the back seat piped out: "I'll bet you stuck a bent pin in the teacher's chair!" "Very well, my son. Now what is the first thing a man does when he gets in Reno?" Then the whole school rose up and with one accord replied vociferously: "He goes to Chase & Thyes' and gets a daisy of a drink, 'cause they've got the best. Pa says so."

COLD WEATHER.

A Married Man's Troubles—Some People are Never Happy.

Alex. Badlam, the California politician, said it was "a cold day when he got left." The mercury in the last political campaign in California dropped very low in Badlam's case, and he concluded cold weather waited for no man. A young married man of Reno (oh, no, not so very young either), was prior to Christmas foolish enough to repeat Badlam's remark when talking about water pipes freezing up. The Benedict said, "It will be a cold day when my pipes freeze, for I intend to keep a fire night and day." The kitchen stove was red hot for four days and nights, the dining-room airtight was full of mahogany for a week, the parlor was kept at 85°, and all this time the good housewife was off on a jam in a neighboring town. The poor "hen-pecked" was on duty day and night, but the pipe froze up. Hot water was freely used, but Jack had the whole business plugged up for keeps. The plumber, and of all tough citizens the plumber is the worst, was called in. "Let time and sunshine do that for you, young man," was all the consolation he could offer. For three months the greeting of a tired, hungry man, on arriving at his home, was before the work is completed. It will be necessary to put a cylinder on each engine intended to haul freight trains. Therefore nearly 100 engines will be supplied. The railroad people do not state what the cost will be, but a competent authority has estimated the probable cost of attachments to freight cars to be \$250,000, regardless of the expense of preparing the engines. Apparatus for about sixty cars has arrived and the contractor is en route from the East. These improvements are to be made in the railroad shops at Sacramento, but will not call for an increased force of men, at least at present.

Phi Bates took the Long Valley trail to-day.

C. H. Stoddard came up from San Francisco this morning.

F. W. Pike was a passenger from the west on the morning train.

L. G. Clark slid out for home this morning on the Duck Flat express.

Barney Horn, the beef merchant, is in town again, on the lookout for cattle.

P. B. Comstock has leased the Boca Hotel at Boca, Cal. He takes possession at once.

Hon. D. C. McKinney of Austin came up from San Jose this morning en route home.

James G. Chesley, late Deputy Secretary of State, has returned to Carson from a visit to California.

Hugh Riddle, President of the Chicago and Rock Island road, and Solon Humphreys, President of the Wabash road, are visiting his coast.

Henry Villard, President of the Northern Pacific railroad, with a party of friends, is on the way to San Francisco. They come via the northern route and will stop over at Salt Lake City.

Hon. Pat. Reddy, State Senator from Mono, Inyo and Fresno counties, Cal., came up this morning and went to Carson. His brother Ned is in San Francisco, fast improving in health.

Capt. Matt. Canavan returned from San Francisco this morning, where it is said, he has been to discipline the Board of Supervisors in the interest of the Spring Valley Water Company. He used to be one of the bosses of that honorable body.

Capt. Charley May, the man who once wished that there wasn't such a thing in the world as a newspaper, came up on the early express, accompanied by a Scotch terrier. He and his dog propose to locate at Coryville.

He Will Show His Endurance.

The greatest walk in the world is what C. A. Harriman sets out to do, beginning at Hurd's Hall, Truckee, on Friday evening. He cannot stop for anything from the time that he commences to walk. He must finish up before stopping for any purpose whatever, the distance of 121 miles. If he succeeds it will be the greatest feat of endurance ever accomplished, and requires nerve and sand that very few men possess.

RAILROAD IMPROVEMENT.

Automatic Freight Train Brakes on the Central Pacific.

The Central Pacific Railroad Company will shortly begin putting Westinghouse automatic brakes on all of its freight cars, says the Sacramento Bee. The Westinghouse air brake now on passenger trains is used by the engineer applying the steam through rubber pipes. The automatic brake requires opposite action. It is kept off of the wheels by the constant pumping of the engine. Under each car is a reservoir which forces the brake unless relieved by the pumping of the engine, on which is placed a cylinder. The attachments are similar in general appearance to those of the air brake. Some Eastern roads use both the air and automatic brakes, the latter for grades. If a train breaks in two and breaks the pipes, the automatic brake on each car is thereby relieved and at once applied, regardless of the engine, and the wheels cannot revolve. This, of course, will save many a freight train from being wrecked. All of the cars in use on the Central and Southern routes and branches will be supplied with the automatic brakes gradually as the cars can be spared from service. About 7,000 freight cars are to be thus provided, though it may be a year or two before the work is completed. It will be necessary to put a cylinder on each engine intended to haul freight trains. Therefore nearly 100 engines will be supplied. The railroad people do not state what the cost will be, but a competent authority has estimated the probable cost of attachments to freight cars to be \$250,000, regardless of the expense of preparing the engines. Apparatus for about sixty cars has arrived and the contractor is en route from the East. TRUCKEE ITEMS.

Scrap of Interest From a Lively Camp.

The following are taken from the Republican of March 23d:

Truckee has become a first-class sporting town. Even the ladies are being coaxed into taking part in the projected walking match. Uncle Joe Gray says the statement about the fish-ladder at Camp 20 is a blank, blank lie; that he will insist upon General Dibble going to see it, and if it is not the best arranged dam for the immigration of fish on the Truckee river, he will eat the whole dashed dam. If Camp 20 dam is all right, and Mr. Gray knows better than any one else, then some other of the dam sellers that obstruct the passage of the trout will be called to book at once. Dibble is here, so look out.

Chinamen are having a grand time this week. It is a sort of Easter with them. They swap provisions and chin-chin over the graves of departed friends.
